Project Presentation Guidelines

1. Each presentation has maximum 15 – 20 minutes.
2. Presentation will carry 5% of the project grade.
3. In addition to the slides presented, you need to submit your project term paper or implementation as part of the submission procedure.

Generic slides guideline (Note that, it is not mandatory to follow this flow, you may come up with any style you want).

Introduction

- What is the project all about?
- Why is it important to study?
- What is the impact? (impact on computer networks, society, security etc., whichever applicable)
- Some real-life examples to explain.

Your contribution

- What have you done in this project (as elaborate as possible)
- What novel aspects of the project do you think are important?

What other researchers are doing?

- Pros?
- Cons?

Conclusion?

Future directions (in your opinion).
